RE: Cedar Street Water Main Extension

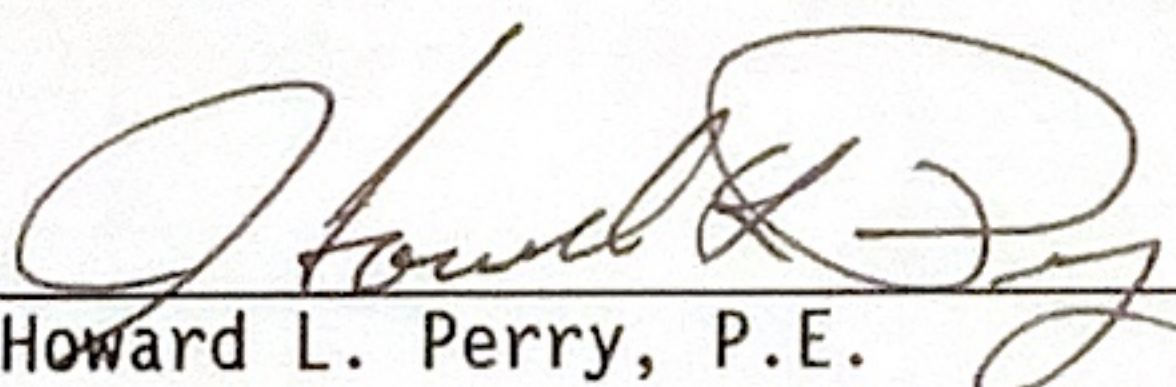

Dear Joe:

Attached is a drawing and a cost estimate that Dan Moore and Kevin Cooper asked that I prepare for use in your application to the State EDD for the water main extension on Cedar Street. The cost estimate that I prepared has assumed that the City will perform the work. The unit prices, however, may be slightly above what it might actually cost the City in order to provide you with some cushion and contingency in the event you need to get some outside assistance to do the installation.

Please review the attached map and cost estimate. Feel free to make any changes you see appropriate. I hope this information is what you need.

Very truly yours,

ANDERSON-PERRY & ASSOCIATES, INC.
